

AdvancedPunch Plus Firmware Release Document

1.1 Scope of the Delivery

Delivery of AdvancedPunch Plus (Sparta 2.0) firmware. Fuji printer software has limited version numbers available (16-32). The version number is defined by the addition of the communication firmware and the main firmware version numbers.

1.2 Software Package Contents

The package contents will be in the form of a zip file that includes 2 files in the form XM2_XXXX & XC2_XXXX.BIN. The release notes will be included as a PDF file.
